SEAN CRAMBLETT

Artist Statement

For more than twenty years, Sean Cramblett has explored the expressive possibilities of glass, allowing the material to guide his curiosity and growth. Beginning in the intimate flame of lampworking and expanding into the sculptural world of kilnformed glass, his process bridges tradition and experimentation. Inspired by nature's quiet order and organic rhythm, Sean's work evokes the textures, colors, and patterns found in the earth itself—each piece a reflection of balance between structure and spontaneity.
