TOM BURROWS

Tom Burrows received a B.A. in Art History from the University of British Columbia in 1967, and continued post-graduate studies at St. Martin's School of Art, London, England until 1969. Burrows has had solo exhibitions in London, Rome, Tokyo, Berlin, New York, and across Canada. In 1999 Burrows' work was included in survey exhibitions of Canadian art at the Vancouver Art Gallery, Glenbow Gallery in Calgary, and the Windsor Art Gallery in Ontario. He has been awarded grants by the Canada Council, Ontario Arts Council, Japan Canada Fund, and the BC Arts Council. Burrows' most prominent medium is cast pigmented polymer resin with which he creates subtle, luminescent abstractions. Brilliant colour fields, sometimes transparent, sometimes opaque, give the illusion of a panel lit from within. Tom Burrows' work is held in private, corporate, and public collections in Europe, Asia and the Americas.
